Opening ourselves to the global space community, JAXA is pleased to support the ISU programs and research activities in order to take advantage of this complementary global aspect.

Prof. Y asunori Matogawa, Associate Executive Director, Japan Aerospace Exploration Agency (JAXA)

CNES is a strong supporter of ISU and provides scholarships for participants, finances a chair at ISU and encourages its experts to participate as lecturers. Moreover, the ISU programs provide a unique opportunity to demonstrate the rich experience of the French space sector to the other participants from all over the world.

Jean-Yves Le Gall, President, CNES

Because we believe that attendance at ISU is an exceptional learning experience for future space leaders, we are pleased to sponsor the annual SES scholarship.

Romain Bausch, Chairman of the Board of Directors, SES

The Boeing Company is a strong supporter of ISU’s concept of international, interdisciplinary and intercultural education for those involved in the space industry and as a result a number of ISU alumni are currently working at Boeing.

The Late Michael Mott, Former Vice President and General Manager, The Boeing Company

ISU specializes in the education of postgraduates and professionals to prepare them for work in an exciting, progressive sector – space! Future leaders and influential thinkers need new skills and a global perspective to prepare them to meet the challenges of a constantly evolving world.

Located in Strasbourg, France, ISU provides a thorough understanding of space and its interrelated fields while offering a unique, international, interdisciplinary and intercultural learning atmosphere. ISU educates our future leaders in space, thus creating knowledge for tomorrow.

Prof. Dr.-Ing. Johann-Dietrich Wörner, Former Chairman of the Executive Board, Deutsches Zentrum für Luft- und Raumfahrt (DLR)

ISU provides an incomparable opportunity for an international and interdisciplinary education, with students and teachers from all around the world with experience in many fields related to the space sector, both technical – physical and life sciences, technology and engineering, applications, medicine – and non-technical – law, economics, humanities, art, policy, philosophy, history.

"Attending ISU has been, for me, the ultimate eye-opening experience. Attending the Master of Space Studies allowed me to pursue my personal interests with a limit determined only by my imagination. I found myself working on very exciting projects with talented and knowledge-thirsty colleagues." Diego Urbina, MSS09

"A journey of a thousand miles starts with a single step" I am glad that I stepped into ISU that helped me mold my career and I foresee a promising future.

Sindhu Emmanuel, MSS10

"Studying with ISU is a rich and powerful experience. Meeting professionals from different areas of the Space Industry and with various backgrounds is as much enlightening as following the lectures of the charismatic ISU experts. I never before learned as much in such a short period of time." Katharina Deil, SES Astra, Luxembourg

"ISU provides a thorough understanding of space and its international, interdisciplinary and intercultural education is an exceptional opportunity to demonstrate the rich experience of the French space sector to the other participants from all over the world." Jean-Yves Le Gall, President, CNES

ISU provides scholarships for those who are otherwise unable to attend ISU and promotes diversity in the space sector. ISU believes that diversity is essential for progress. ISU educates our future leaders in space, thus creating knowledge for tomorrow.

Michael Mott, Former Vice President and General Manager, The Boeing Company
